

## Meritor Part

Meritor Parts - Meritor is a premier international dealer which is proudly established on a 100 year custom of quality and service. They concentrate on different modules, integrated systems and parts to original equipment makers and the aftermarket for the transportation and industrial trades.

Meritor values the wishes of their customers to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their global operations. Meritor begins with a philosophy that values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring more than eleven thousand two hundred individuals, Meritor promotes innovation and collaboration amongst a team of knowledgeable professionals.

Meritor strongly believes in only employing future focused people. These top-caliber workers could rapidly adapt to changing surroundings and freely exhibit the level of commitment and performance required in order to obtain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor provides their workers different chances for personal and professional development.

The Advanced Engineering team is on the forefront of components and system engineering. This consists of axles, drivelines, suspension and braking systems meant for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is even responsible for supporting the requirements of their international engineering employees.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants which are situated all around the globe in 19 nations and in 5 different continents.

The supplier development network is specially situated to be able to support new business development. Regional teams are supported by global quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making in each part of the company. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is likewise included transactional Green Belts who utilize Six Sigma tools to business methods and implement lean techniques.
