

Clark Forklift Part

Clark Forklift Parts - Performing globally, there are currently 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those in service in North America. Clark has five main lines of lift trucks across the world, making it one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 distinctive models of forklifts, with components covering more than 120,000 particular items for all of its automated equipment. Your regional Clark Dealer is your total source for availability of all your components requirements supplied by Clark Totalift.

Clark has a phenomenal Parts Distribution team. The parts warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a very outstanding worldwide support network. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the material handling industry.

Clark proudly remains an progressive leader of the material handling industry, revolutionizing safety features such as the worker restraint system. This exceptional dedication to safety is currently a standard feature on every lift truck.

Clark has a uncompromising goal to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its production facilities. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental restrictions, thus placing them in a dominant market position.

Clark has chosen the extremely economical and advantageous system of "Lean Production" for its assembly facilities and use of resources. This structure was developed to acknowledge the most efficient approaches of manufacturing facility management and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing costs. The contemporary value engineering program combines innovative product growth and provides improved customer support and service within the industry.
