

Cascade Clamps

Cascade Clamps - Established in Portland, Oregon in 1943, the Cascade Manufacturing Company started as a small machine shop hiring just four people. Overall sales for that particular year amounted to about \$60,000. The very first recorded sales revenues involved the assembly and machining of stainless steel valves, pipe fittings and different components. Within five years of operation, the business had stretched to forty employees and their annual sales volume had risen to \$330,000. Nowadays, Cascade is one of the top international producers within the material handling trade.

Design and manufacturing of the company's initial hydraulic cylinder allowed this young company to aggressively pursue better business possibilities. All through the final sixty years, the industry of material handling has grown into a really advanced area with Cascade proudly playing a part in its improvement. Cascade currently continues to develop as the premier provider of lift truck accessories and various associated items. The company feels assured in their ability in order to continue to lead the way in the business by understanding buyer's requirements in the future and remaining competitive in the international market.

Through the nineteen fifties, Cascade began to manufacture, design, and sell its hydraulic attachments. A brand new facility was made in the year 1956, to accommodate all plant operations and offices in Portland, Oregon, which continues to be the company's present center of operations. Following fifteen years of business, total workers reached 180 workers and sales had reached nearly 2.3 million dollars.

In the year 1959 in Springfield, Ohio a second production facility was built. 1960 marked Cascade's initial transfer into the international world of the material handling industry when the company established interest in the Netherlands, England, and Australia.

The company changed its name to Cascade Corporation in 1964. In the year 1965, Cascade went public with a preliminary offering of two hundred thousand shares of common stock. The company has expanded its manufacturing plants throughout the United States with locations in Portland, Oregon, Springfield, Ohio, and Warner Robins, Georgia. Cascade products are manufactured globally due to a lot of subsidiary operations. In 1994, a brand new plant was completed in Almere, the Netherlands which is Cascade's European control center. This plant is built to be the ultimate customer support centre.

Continuing to develop, Cascade expanded their product offering further in 1996 and the year 1997 with the remarkable acquisition of 5 corporations, along with the worldwide best in blades, the Kenhar Corporation.
